

Zohaib Haider

Full Stack Developer | MERN Stack • Next.js • TypeScript • Node.js • NestJS | Islamabad, Pakistan
+92 310 5904269 | zebihaidar123@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years of professional experience** delivering scalable, secure, production-grade web applications across **12+ commercial projects** in SaaS, fintech, healthcare, marketplaces, HR technology, CRM, and LMS. Strong in **React.js, Next.js, TypeScript, Node.js, Express.js, NestJS, MongoDB, PostgreSQL, and Redis**, with hands-on experience in RESTful/GraphQL APIs, authentication and RBAC, database design and query optimization, real-time systems, background processing, third-party integrations, AWS, Docker, automated testing, and CI/CD. Experienced in owning features across the full software development lifecycle from requirements and architecture through implementation, testing, and production delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR), TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, TanStack Query, React Router, React Hook Form, Zod, shadcn/ui, Material UI, Chakra UI, Framer Motion

Backend & APIs: Node.js, Express.js, NestJS, Python (FastAPI/Flask – working knowledge), RESTful APIs, GraphQL, WebSockets, Socket.io, Webhooks, JWT, OAuth, Passport.js, Authentication, Authorization, RBAC, Multi-Tenant SaaS, Swagger/OpenAPI

Data & Systems: MongoDB, PostgreSQL, MySQL, Elasticsearch, Redis, Firebase, Supabase, Drizzle ORM, Mongoose, SQL, Database Schema Design, Query Optimization, BullMQ, Caching, Background Workers, Cron Jobs

Cloud & Integrations: AWS EC2, S3, CloudFront, IAM, Gemini/LLM APIs, Stripe, PayPal, QuickBooks, Zoho Books, Intercom, Box, SMTP/Email, Google Maps, SOAP APIs, OAuth Providers

DevOps & Quality: Docker, Git, GitHub Actions, CI/CD, NGINX, Vercel, Render, Jest, Supertest, Cypress, Playwright, Unit Testing, Integration Testing, E2E Testing, API Testing, Code Reviews

PROFESSIONAL EXPERIENCE

Full Stack Developer

Aug 2024 – Present

Jidat IT

Islamabad, Pakistan

- Delivered end-to-end production features across **12+ commercial SaaS, fintech, healthcare, marketplace, HR, CRM, LMS, and enterprise applications** using **React, Next.js, TypeScript, Node.js, Express.js, NestJS, MongoDB, PostgreSQL, Redis, Firebase, and Supabase**.
- Designed and implemented **secure RESTful/GraphQL APIs**, reusable frontend components, database schemas, indexes, and optimized queries; built **multi-role dashboards, JWT/OAuth authentication, RBAC, analytics, real-time workflows, validation, and responsive UIs**.
- Engineered payment and financial workflows across **4+ platforms** using **Stripe, PayPal, QuickBooks, and Zoho Books**, covering subscriptions, delayed/off-session charges, refunds, payouts, wallets, invoices, and reliable webhook synchronization.
- Integrated **8+ third-party APIs and services** including Gemini AI, Intercom, WEX SOAP, QuickBooks, PayPal, Zoho Books, AWS S3, and Box; built **Redis/BullMQ workers, caching, cron jobs, retries, idempotent webhooks, and asynchronous processing pipelines**.
- Contributed across **requirements analysis, architecture, implementation, debugging, automated testing, code review, documentation, and production delivery** using Docker, Git, AWS, NGINX, GitHub Actions CI/CD, EC2, S3, and CloudFront.

SELECTED PROJECTS

Driving School Platform (DSP) | React, TypeScript, Node.js, GraphQL, MongoDB, Redis, Stripe

- Built a multi-role marketplace for **students, instructors, and admins** covering instructor discovery, availability, booking, payments, progress tracking, analytics, document management, reviews, and real-time messaging.
- Implemented **T-48 delayed charging, 3DS/off-session payments, refunds, payouts, and idempotent Stripe webhooks**, plus reminder/auto-cancel flows, timezone-aware scheduling, and slot-transfer rescheduling.

CardLock – Enterprise Fuel Card Platform | React, TypeScript, Express.js, PostgreSQL, AWS S3, QuickBooks

- Built enterprise fuel-card operations covering **live card management, assignments, limits, transaction reporting, location controls, custom pricing, scheduled reports, and role-based access** using Express.js and PostgreSQL.
- Integrated **QuickBooks OAuth/invoicing**, AWS S3 pre-signed downloads, cron-based reporting, PostgreSQL/Drizzle models, JWT sessions, and separate admin/customer portals.

HR Intelligence – AI-Powered Intercom Platform | Node.js, TypeScript, PostgreSQL, Redis, BullMQ, Gemini

- Built an **AI-powered HR workflow platform** that processes Intercom conversations, extracts employee identities, classifies cases using Gemini, links related cases, and recommends store-specific CC recipients.
- Eliminated webhook timeout failures by **decoupling AI processing into Redis/BullMQ workers** (webhook → queue → worker → AI → database), with retries and idempotency to prevent duplicate processing.

PDE – Multi-Tenant Clinic Compliance SaaS | React, TypeScript, Express.js, PostgreSQL/Supabase, Stripe

- Built a **multi-tenant healthcare operations and compliance platform** for facilities, rooms, equipment, maintenance, documents, staff, subscriptions, and permission-controlled role-based dashboards.
- Implemented **Stripe subscription onboarding, plan limits, recurring maintenance automation, compliance scoring, document approval workflows, activity logs, and Supabase authentication**.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2020 – Aug 2024

International Islamic University Islamabad

Islamabad, Pakistan

CGPA: 3.66 / 4.00 | Coursework: Data Structures & Algorithms, OOP, Database Systems, Software Engineering, Web Development.
